Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 07 October 2005.
- 2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

Disposition of Claims

DETAILED ACTION

1. This action is in response to applicant's amendment received on 10/7/05.

Claim Rejections - 35 USC § 112

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. Claims 33 and 35 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

It is not clear what "a small interval" encompasses.

Claim Rejections - 35 USC § 102

4. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

5. Claims 2, 3, 20-22 and 31-35 are rejected under 35 U.S.C. 102(e) as being clearly anticipated by Raimondi (6216572 B1).

Art Unit: 3724

Regarding claims 2, 3 and 20, Raimondi discloses (Fig. 1-4) the invention including a workpiece-machining device 5, a workpiece-storage device (Fig. 2-3), a traveling body 17, rectangular coordinate movement means (19-20), gripping means 18, a product-housing section 22, a material housing section 21, a machining section 4; a *workpiece-feeding device* having a rail 16 and a carriage 14, and the workpiece-storage device is located at the side of the workpiece-machining device (see Fig. 1).

Claim Rejections - 35 USC § 103

6. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

7. Claims 19 and 23-24 are rejected under 35 U.S.C. 103(a) as being unpatentable over Raimondi (6216572 B1) in view of Makeev et al. (3830121).

Raimondi discloses the invention substantially as claimed except for a skeleton-housing section for stacking a skeleton. However, Makeev et al. teaches the use of a skeleton-housing section 34 for stacking a skeleton for the purpose of storing the waste material (skeleton). It would have been obvious to one having ordinary skill in the art at the time the invention was made to have modified Raimondi's device by providing the skeleton-housing section as taught by Makeev et al. in order to obtain a device that stores the waste material (skeleton).

Response to Arguments

8. Applicant's arguments have been fully considered but they are not persuasive. Applicant argues that there is no room in Raimondi to add the skeleton-hosing section of Makeev.

However, there is no disclosure of the size of the device in the claims, neither the novelty of any specific size. Also, one of having ordinary skill in the art can modify the size of Makeev's device in order to works with Raimondi's device.

Conclusion

9. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
